The National Coalition Building Institute
of Rochester, NY, in concert with St. John Fisher College's
Office of Multicultural Affairs and Diversity Programs
is pleased to offer a workshop for Men

Dismantling Patriarchy: Our Liberation as men depends upon it

Patriarchy dominates our way of living because of pervasive male privilege which includes the false but common beliefs that men are smarter, make better leaders, and are generally superior in all ways to women and to people who identify beyond the male-female binary. The widespread fallout from this is directly related to so much of our distress and the variety of oppressions that keep us apart.

And who else is in a better position to change this? Men have the power and obligation to end patriarchy and actively support a movement to have women and non-binary people take leadership.

Workshop Outcomes:

1. To understand how people of all gender identities are hurt by patriarchy.
2. To embrace the power we have to end patriarchy.
3. To set specific individual goals to support leadership by girls, women and non-binary people.

Date: Friday, March 23, 2018, **9 am-12 noon**
Morning refreshments and snacks provided.

Place: **St. John Fisher College, Golisano Gateway-Midlevel**
3690 East Avenue, Rochester, New York 14618

Many thanks to St. John Fisher and the Office of Multicultural Affairs and Diversity Programs. Due to their generosity this program is presented without charge.
